

Request for Proposal: Website Redesign & CRM-Integrated Build

Introduction & Background

Open Primaries is seeking proposals from qualified web development agencies or firms to lead the redesign, build, and launch of our primary organizational website in coordination with a CRM migration to EveryAction (Bonterra).

Founded in 2009, Open Primaries is a national democracy reform organization working to advance open and nonpartisan primary systems. We engage voters, policymakers, and civic leaders across the country through advocacy, litigation, research, public education, and organizing.

Our website must evolve from a communications platform into a **core growth, fundraising, and organizing system** aligned with our 2026–2028 strategic priorities.

This project will run in parallel with a CRM migration to EveryAction and must be tightly integrated with that system.

Project Objectives

We are seeking a partner to help us achieve the following:

1. Build a High-Performance Growth Platform

- Transform the website into a primary driver of:
 - Fundraising
 - Email list growth
 - Advocacy actions (petitions, events, organizing)
- Create clear, compelling user journeys for key audiences:
 - Donors
 - Independent voters
 - Volunteers
 - Media and partners

2. Deliver a Modern, Scalable Website Architecture

- Redesign information architecture and navigation around 2026 priorities
- Develop flexible page templates for:
 - Campaigns
 - Advocacy actions
 - Fundraising
 - Research and media
- Ensure the site is intuitive, fast, and mobile-optimized

3. Integrate Seamlessly with EveryAction (Bonterra)

- All forms must integrate natively or via API:
 - Donations
 - Email signups
 - Petitions
 - Event registrations
- Support:
 - Source tracking
 - Tagging and segmentation
 - Reporting alignment with CRM data

4. Enable Full Internal Ownership Post-Launch

- CMS must be easy for non-technical staff to manage
- No ongoing developer dependency for routine updates
- Clear documentation and staff training required

5. Ensure Compliance, Accessibility, and Governance

- WCAG 2.1 accessibility compliance
- SEO-safe migration (URL structure, redirects, metadata)
- Support for legal separation between:
 - Open Primaries (C4)
 - Open Primaries Education Fund (C3)
 - Let Us Vote

Scope of Work

Strategy & Discovery

- Collaborate with Open Primaries on:
 - Website goals and success metrics
 - Audience segmentation and user journeys

- Translate internal strategy documents into:
 - Sitemap
 - Information architecture
 - Page hierarchy

(Note: Open Primaries will complete a pre-vendor internal strategy phase and provide key inputs.)

Information Architecture & UX

- Lead sitemap development and refinement
- Define navigation structure and content groupings
- Design homepage structure aligned with messaging priorities
- Recommend UX best practices for conversion and engagement

Design & Front-End Development

- Visual design aligned with Open Primaries brand
- Mobile-first, responsive design
- Accessible UI components
- Reusable design system for consistency and scalability

CMS & Backend Development

- CMS setup and configuration (vendor to recommend platform)
- Template-based page system
- Role-based permissions and content workflows
- Scalable architecture for future campaigns and microsites

CRM Integration (EveryAction)

- Build and integrate:
 - Donation forms
 - Signup forms
 - Petition flows
 - Event registration
- Ensure:
 - Accurate data syncing
 - Tagging and attribution
 - Multi-entity routing (C3/C4 where applicable)

Analytics, SEO & Tracking

- GA4 implementation

- Conversion tracking setup
- UTM and attribution framework
- SEO migration plan including:
 - Redirect mapping
 - Metadata preservation
 - URL structure recommendations

Quality Assurance & Launch

- Cross-browser and cross-device QA
- Accessibility validation
- End-to-end CRM data testing
- Soft launch and full launch support

Training & Post-Launch Support

- Staff training sessions
- Documentation for CMS and workflows
- Defined post-launch optimization period

Technical Considerations

Vendors should address:

- Recommended CMS platform and rationale
- Experience integrating with EveryAction or similar CRMs
- Approach to scalability and performance
- Hosting and maintenance recommendations
- Security best practices

Project Timeline

We anticipate the following timeline:

- **RFP Issued:** April 1st, 2026
- **Proposals Due:** April 20th
- **Vendor Interviews:** April 25th-May 5th
- **Vendor Selection:** May 15th
- **Project Start:** May-June 2026 (aligned with CRM migration)
- **Launch Target:** Fall 2026

Proposal Requirements

We are seeking **full proposals**. Submissions should include:

1. Firm Overview

- Background, size, and areas of expertise
- Experience with nonprofit and advocacy organizations

2. Approach & Methodology

- How you approach:
 - Discovery
 - UX and IA development
 - CRM-integrated builds
- How you collaborate with internal teams

3. Relevant Experience

- 2–4 examples of similar projects
- Emphasis on:
 - Nonprofits
 - Advocacy organizations
 - CRM-integrated websites
- Include links and measurable outcomes if available

4. Technical Approach

- Recommended CMS and tech stack
- CRM integration approach (EveryAction or comparable)
- Performance, accessibility, and SEO strategy

5. Project Team

- Key team members and roles
- Relevant experience

6. Timeline & Process

- Estimated timeline aligned with our goals
- Key phases and deliverables

7. Budget & Fee Structure

- Total project cost (range is acceptable)
- Breakdown by phase (strategy, design, build, etc.)

- Ongoing costs (hosting, maintenance, support)

8. References

- 2–3 client references

Evaluation Criteria

Proposals will be evaluated based on:

- Strategic thinking and clarity of approach
- Understanding of growth-oriented nonprofit websites
- Experience with CRM-integrated builds
- UX and information architecture expertise
- Ability to deliver a maintainable, staff-owned system
- Cost and overall value

Submission Instructions

Please submit proposals electronically in PDF format to:
